JALITE AAA has excellent luminance performance and satisfies International Standards for photoluminescent requirements.

BS ISO 16069:2004
Graphical symbols - Safety signs - Safety way guidance systems (SWGS)

Escape Route Signs

Escape route signs should be sited in conspicuous positions along the escape routes, priority given to the shortest possible route from any point. They are also required at every decision making point, indicating:

- • Change of level
- • Change of direction
- • Identification of escape doors by siting signs above □ escape doors.

JALITE escape route signs conform to British and International Standards providing a standardised meaning of the direction of escape.

4344 G
4344 L, 4344 I, 4344 W

4343 G
4343 L, 4343 I, 4343 W

4979 G
4979 L, 4979 I, 4979 W

4980 G
4980 L, 4980 I, 4980 W

4975 G
4975 L, 4975 I, 4975 W

4973 G
4973 L, 4973 I, 4973 W

4977 G
4977 L, 4977 I, 4977 W
